Additional information

The directors have decided that the following adjustments should be made to the financial statements for the year ended 30 June 2019 before they are finalised.

1. Irrecoverable debts of $18 000 should be written off.
2. Prepaid expenses amounted to $25 000.
3. The value of closing inventory should be increased by $6000.

(b) Prepare a statement of financial position for Z Limited at 30 June 2019. [8]

(c) Explain the factors that should be considered before deciding which method to use when depreciating a non-current asset. [4]

Additional information

The directors of Z Limited wish to raise $1 million for expansion. They are considering the following two ways of raising the necessary finance.

1. Issue a further 8% debenture (2025–2027) for the full amount of funds required; or
2. Make an offer of a rights issue at a premium of $0.50 per share.

(d) Advise the directors which method of raising the finance they should use. Use any ratios as appropriate to support your answer. [6]

During the year Liam had sent 1000 machines with a cost of $50 each to his agent Clarissa in Puerto Rico, where they had a selling price of $80 each. By the end of the year only 750 machines had been sold.

Liam had paid $4000 to ship the machines to Puerto Rico. He had in error entered this in his carriage outwards account and included it in distribution costs, instead of entering it in the consignment account.

Answer the following questions in the Question Paper. Questions are printed here for reference only.

(a) (i) Explain the effect of this error on the profit on consignment. Support your answer with figures. [3]

(ii) Explain the effect of this error on the profit for the year. Support your answer with figures. [3]

Additional information

Clarissa was entitled to a commission equal to 10% of sales. She paid import duties of $2000 when the goods arrived in Puerto Rico.

(b) Prepare the consignment account for the year ended 31 December 2018 with the error corrected. [10]

(c) Calculate the correct **total** value of inventory to be included in Liam’s statement of financial position at 31 December 2018. [3]
Additional information

Liam has the opportunity to enter into another consignment in a country which is much closer. The machines could only be sold there for $74 each.

(d) Discuss the benefits to Liam if he enters into this new consignment. Justify your answer. [4]

(e) Explain one difference between an agent in a consignment and a party in a joint venture. [2]

The following was agreed for the purpose of the merger.

1. The value of each business was: Jack $195 000; Paul $152 000.
2. Jack’s plant and equipment would be revalued at $128 000.
3. Paul’s inventory would be revalued at $40 000.
4. Paul’s trade receivables would be reduced by 2% for making allowance for doubtful debts.

All other assets and liabilities would be transferred at the book value.

Answer the following questions in the Question Paper. Questions are printed here for reference only.

(a) Calculate the value of total goodwill arising from the terms of the merger. [3]
Additional information

The following were the terms of the partnership.

1 Initial capital contributed by Jack and Paul would be $200,000 and $160,000 respectively, to be settled by net assets transferred and cash.

2 The profit and loss sharing ratio between Jack and Paul will be 3:2.

3 Goodwill arising from the merger is to be written off against each partner’s capital account immediately after the merger.

(b) Prepare the statement of financial position for the partnership at 1 July 2018. [10]

Additional information

The partners also agreed to the following terms of the partnership.

1 Partners’ salaries will be $24,000 each.

2 Each partner will take their salary and share of profit as drawings.

The profit for the year ended 30 June 2019, before appropriation, was $66,000.

(c) Prepare the current account for each partner for the year ended 30 June 2019. [5]

(d) Calculate, to two decimal places, the return on capital employed (ROCE) for the year ended 30 June 2019. [2]

(e) Evaluate whether or not Jack and Paul have benefited financially from merging their businesses. Justify your answer. [5]

</tr>
</tbody>
</table>

Total production overheads, $180,000, are to be allocated to each product on the basis of machine hours. A 50% mark-up will be added to the production cost of each product to set the selling price.

Answer the following questions in the Question Paper. Questions are printed here for reference only.

(a) Calculate for each product the unit production cost and unit selling price. [7]

Additional information

On the advice of the management accountant, Young is considering using activity based costing (ABC) to allocate the production overheads to both products. The following information is available.

<table>
<thead>
<tr>
<th></th>

</tr>
</tbody>
</table>

(b) State what is meant by ‘Activity Based Costing (ABC)’. [1]

(c) Recalculate for each product the unit production cost and the unit selling price using ABC. [7]

(d) (i) Calculate the difference between the unit production overhead charged to Product X and to Product Y using each method. [3]

(ii) Calculate the difference between the unit selling price using the two costing methods for Product X and Product Y. [2]

(e) Advise Young whether or not he should change the method of allocating production overhead costs to ABC. Justify your answer. [5]

</tr>
</tbody>
</table>

Each unit of production requires 1.5 kilos of direct material at $3 per kilo. There will be a cost increase of 10% in August, and this will be in force for the rest of the year.

The following information is also available.

1. Abida manufactures the product one month before the month of sale.
2. Closing inventory is 20% of the following month’s sale.
3. Purchases of direct material are made one month before production starts. The company only purchases sufficient raw materials each month to meet the following month’s production requirement.

Answer the following questions in the Question Paper. Questions are printed here for reference only.

(a) Prepare for each of the four months June to September:

(i) the production budget in units [5]

(ii) the purchases budget in both kilos and dollars. [5]

Additional information

Abida encourages her managers to prepare their own departmental budgets.

(b) State two advantages and three disadvantages to Abida of continuing to allow the departmental managers to prepare their own budgets. [5]
Additional information

Abida had also prepared an annual budget for a second product she manufactures. The following budgeted information is available for the year for this product.

<table>
<thead>
<tr>
