1 Alan and Jack have been in partnership for several years, sharing profits and losses equally. They prepare their financial statements annually to 30 September.

On 30 September 2014 the balances on their capital accounts were Alan $139,800 and Jack $128,000.

On 1 October 2014 the following took place:

1 Max joined the partnership. He paid $27,000 into the partnership bank account and introduced inventory valued at $5,000.

2 Alan transferred $15,000 from his capital account into a loan account. Interest on the loan is to be paid at 10% per annum. The loan is repayable by 30 September 2020.

3 The partners agreed a value for goodwill of $40,000. No goodwill is to be recorded in the books.

4 Alan, Jack and Max are to share profits and losses in the ratio 2:2:1 respectively.

REQUIRED

(a) Prepare the capital accounts of the partners at 1 October 2014 taking the above into account.

Alan, Jack and Max
Capital accounts at 1 October 2014

[6]
(b) (i) State what is meant by goodwill.

(ii) State three factors which affect the value of goodwill.

Additional information

The terms of the new partnership agreement included the following:

Interest on capital 7.5% per annum on capital account balances at the end of each financial year

Interest on drawings 3% on total drawings for the year

Salary to Max $10,000 per annum

The following information is also available for the year ended 30 September 2015:

<table>
<thead>
<tr>
<th></th>
<th>Alan</th>
<th>Jack</th>
<th>Max</th>
</tr>
</thead>
<tbody>
<tr>
<td>Current account balances at 1 October 2014</td>
<td>$9,500 Credit</td>
<td>$7,500 Credit</td>
<td>Nil</td>
</tr>
<tr>
<td>Drawings for the year ended 30 September 2015</td>
<td>$16,000</td>
<td>$24,000</td>
<td>$8,000</td>
</tr>
</tbody>
</table>

The residual profit to be shared by the partners in the profit sharing ratio is $90,000.
REQUIRED

(c) Prepare the partners’ current accounts for the year ended 30 September 2015.

Alan, Jack and Max
Current accounts

(d) Calculate the profit for the year ended 30 September 2015 transferred from the income statement to the appropriation account.

Raheem is a trader who makes all his sales on credit. He prepared the following sales ledger control account for the month of December 2015:

<table>
<thead>
<tr>
<th></th>
<th>$</th>
<th></th>
<th>$</th>
</tr>
</thead>
<tbody>
<tr>
<td>Balance b/d</td>
<td>22,380</td>
<td>Sales returns journal</td>
<td>1,440</td>
</tr>
<tr>
<td>Sales journal</td>
<td>16,910</td>
<td>Bank</td>
<td>17,380</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Balance c/d</td>
<td>20,470</td>
</tr>
<tr>
<td></td>
<td>39,290</td>
<td></td>
<td>39,290</td>
</tr>
<tr>
<td>Balance b/d</td>
<td>20,470</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Raheem extracted a list of customer account balances from the sales ledger at 31 December 2015 totaling $18,740. This did not agree with the balance on the control account.

The following errors were found:

1. A sales invoice for $960 had been correctly recorded in the sales journal, but had not been posted to the customer’s ledger account.
2. A customer’s irrecoverable debt of $250 had not been written off in any of Raheem’s books of account.
3. A cheque received, $670, from a customer had been correctly recorded in the cash book. It had been entered on the debit side of the customer’s ledger account as $760.
4. A cheque received, $200, from a customer had been returned unpaid by the customer’s bank. No entry in respect of the returned cheque had been made in any of Raheem’s books of account.
5. Discounts allowed of $830 had not been entered in the control account. They had been entered in the customers’ ledger accounts.
6. A contra to the purchases ledger of $1,370 had been entered in the customer’s sales ledger account, but had not been included in the control account.

REQUIRED

(a) Prepare the updated sales ledger control account for the month of December 2015. Start your answer with the balance brought down of $20,470.
(b) Prepare a statement to reconcile the original total of sales ledger balances of $18,740 with the closing balance on the amended sales ledger control account.

......................................................................................................................................................... [5]

(c) State three advantages to a business of maintaining a sales ledger control account.

1 .......................................................................................................................................................... 

.......................................................................................................................................................... 

2 .......................................................................................................................................................... 

..........................................................................................................................................................

3 .......................................................................................................................................................... [3]

(d) State two types of errors that will not be identified by producing a sales ledger control account.

1 ..........................................................................................................................................................

..........................................................................................................................................................

2 ..........................................................................................................................................................

.......................................................................................................................................................... [2]

The following is an extract from the statement of financial position of Chopin Limited at 30 June 2015:

<table>
<thead>
<tr>
<th></th>
<th>$</th>
</tr>
</thead>
<tbody>
<tr>
<td>Non-current assets</td>
<td>750 000</td>
</tr>
<tr>
<td>Ordinary shares of $0.25 each</td>
<td>300 000</td>
</tr>
<tr>
<td>Share premium</td>
<td>20 000</td>
</tr>
<tr>
<td>Retained earnings</td>
<td>635 210</td>
</tr>
</tbody>
</table>

During the year ended 30 June 2016, the following took place:

1 November 2015  Non-current assets were revalued to $1 000 000.

1 January 2016  A bonus issue of shares was made. The terms of the issue were 1 new share for every 10 shares in existence. Reserves were maintained in the most flexible form.

1 April 2016  Dividend of $0.02 per share was paid.

Profit for the year ended 30 June 2016 was $230 809.

**REQUIRED**

(a) Prepare a statement of changes in equity for the year ended 30 June 2016.
(b) Explain why the company should not use its revaluation reserve to pay dividends to shareholders.

........................................................................................................................................... [4]

(c) State two uses of a share premium account.

1 ........................................................................................................................................... [2]

2 ........................................................................................................................................... [2]

(d) State the difference between a bonus issue of shares and a rights issue of shares.

Costello Limited is a manufacturing business that produces one product, a wooden bookcase. All production is sold to just one customer, Dando plc.

Costello Limited is contracted to produce 220 bookcases for the customer each week at a contract price of $30 per bookcase.

Employees are paid a fixed salary each week plus a bonus based on output.

The costs incurred by Costello Limited are as follows:

<table>
<thead>
<tr>
<th>Cost</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Direct material cost</td>
<td>$22.00 per unit</td>
</tr>
<tr>
<td>Production labour</td>
<td></td>
</tr>
<tr>
<td>Salaries</td>
<td>$345.00 per week</td>
</tr>
<tr>
<td>Bonus</td>
<td>$0.50 per unit</td>
</tr>
<tr>
<td>Finishing labour</td>
<td></td>
</tr>
<tr>
<td>Salaries</td>
<td>$280.00 per week</td>
</tr>
<tr>
<td>Bonus</td>
<td>$0.25 per unit</td>
</tr>
<tr>
<td>Machine hire</td>
<td>$150.00 per week</td>
</tr>
<tr>
<td>Administration costs</td>
<td>$500.00 per week</td>
</tr>
<tr>
<td>Property costs</td>
<td>$260.00 per week</td>
</tr>
</tbody>
</table>

**REQUIRED**

(a) Calculate the **weekly** break-even point in units.

[5]
(b) Calculate the weekly margin of safety in **units** and in **revenue**.

.................................................................................................................................................. [2]

(c) Prepare an **annual** profit statement using marginal costing.

.................................................................................................................................................. [4]
Additional information

The directors of Costello Limited are concerned about the future prospects of the company. Employees have spare capacity and the machinery is not being fully utilised.

The company has been approached by a large retailer asking for a quotation to produce 100 bookcases each week. The retailer requires the bookcases to have a different finish that would add $2.25 to the direct material cost.

REQUIRED

(d) Calculate the selling price that the directors should charge the retailer in order to achieve a 20% contribution to sales ratio.

[4]
Additional information

Having considered the situation, the directors have decided to quote a price of $29 per bookcase to the retailer. The additional work will involve employing one additional member of staff at a weekly salary of $140. The contract with Dando plc to produce 220 bookcases per week would still be maintained at the price of $30 per bookcase.

REQUIRED

(e) Prepare a profit statement for Costello Limited to show the total annual contribution and total annual profit if the retailer accepts the quotation.

(f) Advise the directors whether or not they should proceed with the additional order for the retailer. Give reasons for your answer.
Additional information

Businesses may value inventory using different methods.

REQUIRED

(g) Explain two advantages and one disadvantage of using the AVCO method of inventory valuation.

Advantage 1

Advantage 2

Disadvantage
