

1. Full answer with explanations:

	yes	no
Full name	✓	
Capital of England		✓
Gender	✓	
Number of flowers in a garden		✓

2. Full answer with explanations: Microphone Touch screen

- 3. Full answer with explanations:** **1.** Screens tend to be anti-glare, reducing reflections and improving visibility in various lighting conditions. **2.** Uses touch screen, allowing users to interact with the device through tapping, swiping, and gestures. **3.** Front and back facing cameras are included, providing the capability for video calls, photography, and other multimedia applications. **4.** Has a built-in battery, allowing the tablet to be portable and operate without the need for a constant power source.

- 4. Full answer with explanations(a):** **1.** Customer is asked to enter their debit card in the ATM, initiating the transaction process. **2.** Customer's bank computer is contacted, establishing a connection between the ATM and the bank's central system. **3.** The card details are searched in the bank database, retrieving information related to the customer's account. **4.** Card is checked to see if valid/in date/stolen, ensuring the card is current, valid, and not reported as stolen or lost. **5.** Customer is asked to enter their PIN, providing an additional layer of security for the transaction. **6.** PIN is compared to the PIN stored on the chip, verifying the customer's identity and ensuring the authenticity of the transaction.

Full answer with explanations(b): Advantages of Visiting the Bank: **1.** Retention of banks allows access for all customers, ensuring that individuals who may not have internet access or are uncomfortable with online transactions can still avail of banking services. **2.** Easier for customers to speak to a member of the banking staff, facilitating direct communication for personalized assistance and inquiries. **3.** Customers do not have to purchase expensive computer equipment, making banking services accessible without the need for additional technology investments.

Disadvantages of Visiting the Bank: **1.** Have to pay to travel to the bank to use the service, incurring additional costs for transportation. **2.** Customers could waste time standing in queues or traveling to the bank, leading to potential inefficiencies and inconvenience. **3.** More difficult for people who have a condition affecting their mobility, posing challenges for individuals with physical limitations. **4.** Smaller customer base as it is local, limiting accessibility to those in close proximity to physical bank branches.
