

**MARK SCHEME for the October/November 2010 question paper  
for the guidance of teachers**

**0452 ACCOUNTING**

**0452/22**

Paper 2, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

(c) A contra entry is when an account in the sales ledger is set against an account in the purchases ledger. (1) Such an entry is made when a supplier is also a customer of the business and has an account in both ledgers. (1) [2]

(d) The sales ledger control account acts as a check on the sales ledger. If there is an error in the sales ledger it will not be revealed by a control account prepared from the individual accounts in that ledger. [2]

(e)  $\frac{22\,415 \text{ O/F}}{275\,000} \times \frac{365}{1} = 29.75 \text{ days} = 30 \text{ days (1)O/F}$  [2]

- (f) Offer cash discount for early payment  
Charge interest on overdue accounts  
Improve credit control  
Refuse further supplies on credit until any outstanding balance is paid  
Invoice discounting and debt factoring

- (d) Bank manager  
 Assessment of prospects of any requested loan/overdraft being repaid when due  
 Assessment of prospects of any interest on loan/overdraft being paid when due  
 Assessment of the security available to cover any loan/overdraft

Lenders

- Assessment of prospects of any requested loan being repaid when due  
 Assessment of prospects of any interest on loan being paid when due  
 Assessment of the security available to cover any loan

Creditor for goods

- Assessment of the liquidity position  
 Identifying how long the business takes to pay creditors  
 Identifying future prospects of the business  
 Identifying what credit limit is reasonable

Manager (if any)

- Assessment of past performance  
 Basis of future planning  
 Control the activities of the business  
 Identifying areas where corrective action is required

**Or other suitable interested persons e.g. employees, government bodies, competitors, take-over bidders etc**

**TWO business people to be identified (1) each**

**ONE acceptable reason required in each case (1) each [4]**

- (e) (i) Non-financial aspects  
 Accounts only record information which can be expressed in monetary terms. (1)  
 This means that there are many important factors which influence the performance of a business which will not appear in the financial statements (final accounts) e.g. quality of management, goodwill, skill of workforce etc. (1)
- (ii) Historical cost  
 Transactions are always recorded at the actual cost. (1)  
 This means that it can be difficult to compare transactions which have taken place at different times because of the effect of inflation. (1) [4]

**[Total: 20]**

- 4 (a) Authorised share capital is the maximum amount of share capital a company is allowed to issue. (2)

Paid-up share capital is the total amount of capital a company has received from its shareholders. (2) [4]

(b) (i)  $4\% \times 25\,000$  shares of \$1 each (1) = \$1000 (1)

(ii)  $3\% \times \$15\,000$  (1) = \$450 (1)

(iii)  $5\% \times 60\,000$  shares of \$0.50 (1) = \$1500 (1)

[6]

(c)

|                                 | Income Statement<br>Profit & Loss Account | Appropriation<br>Account | Balance<br>Sheet |     |
|---------------------------------|---|--------------------------|------------------|-----|
| Debenture interest payable      | ✓   | No entry                 | ✓                | (2) |
| Ordinary share dividend payable | No entry                                  | ✓                        | ✓                | (2) |

[4]

(d)

|                          |               |     |
|--------------------------|---------------|-----|
|                          | \$            |     |
| Ordinary share capital   | 30 000        |     |
| Preference share capital | 25 000        |     |
| Debentures               | <u>15 000</u> |     |
|                          | <u>70 000</u> | (1) |

[1]

(e)  $\frac{11840}{70\,000} \times \frac{100}{1} = 16.91\%$  (1) **O/F** (1)

[2]

(f) If the return on capital employed increases it indicates that the company is employing its resources more efficiently. (2)

[2]

[Total: 19]

5 (a) To compensate for the fact that she does more work than Samuel.

Or

To recognise the work that she does in the partnership.

**Horizontal format acceptable**

**Calculation of current account balances outside balance sheet acceptable if presented in the form of ledger accounts [10]**

(c)  $23\,562 : 18\,400$  (1) =  $1.28 : 1$  (1) [2]

(d) Injection of capital  
Long term loan  
Sale of surplus non-current (fixed) assets  
Reduction in drawings

**Or other suitable points**

**Any 2 points (1) each [2]**

(e) Does not include inventory (stock) in the calculation. (1)

**Either**

Inventory (stock) is not regarded as a liquid asset – a buyer has to be found and then the money collected. Some goods may prove to be unsaleable. (1)

**Or**

The quick ratio shows whether the business would have any surplus liquid funds if all the current liabilities were paid immediately from the liquid assets. (1) [2]

**[Total: 18]**

|               |                                       |                 |              |
